

Initial Obfuscation Methods

Adrian Cortez, D'avante Farmer, Landon Morrical

Wednesday, February 11, 2026

User Account #1 (Easy Password) :

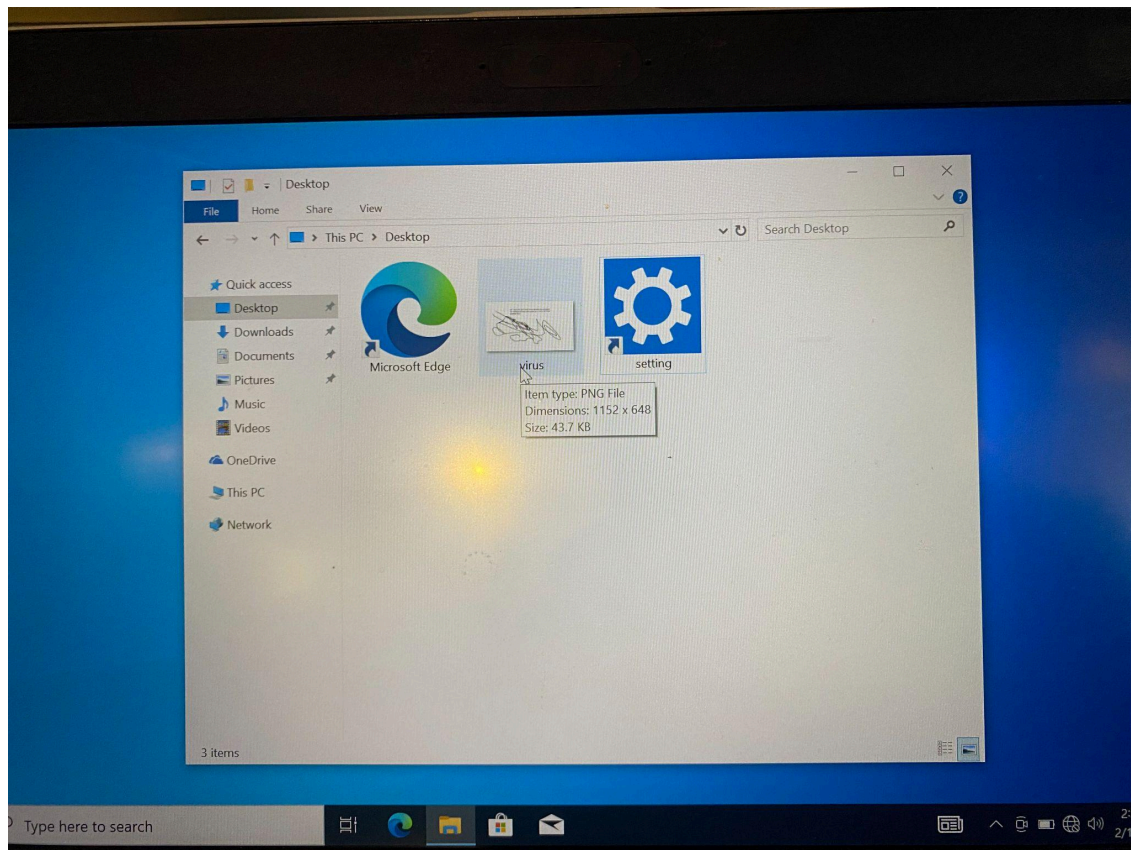

Username: DF (D'avante's Account)

Password: ILLINOIS

Method of Obfuscation: file obfuscation

- I did a bible verse using paint, where I created a short cut of the image and changed the icon of the image on the desktop screen.

Date and Time Planted: 2/11/2026 at 4:17 PM

User Account #2 (Medium Password):

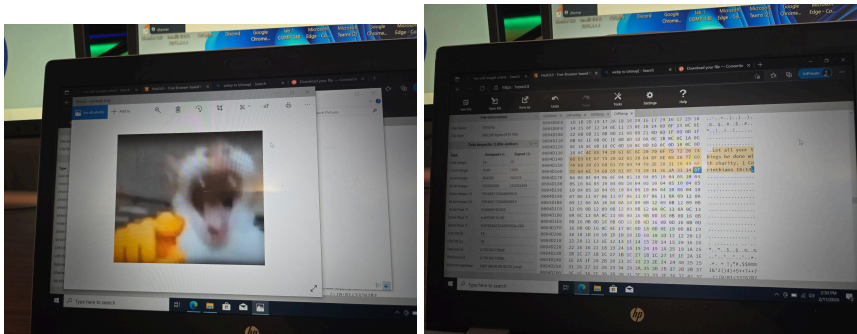

Username: Landon Morrical

Password: 57Rendevous???

Method of Obfuscation: Image Steganography.

- I downloaded an image, hex edited it online to add the bible verse, then planted it inside the Photos folder on the Landon Morrical user account.
- Forensic investigators would need to open the photo with a hex editor in order to find the verse.

User Account #3 (Hard Password):

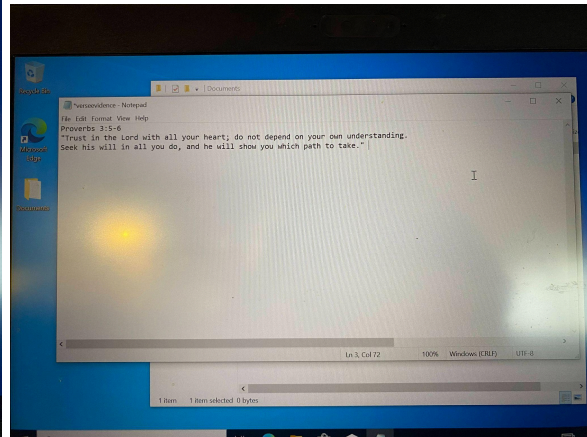

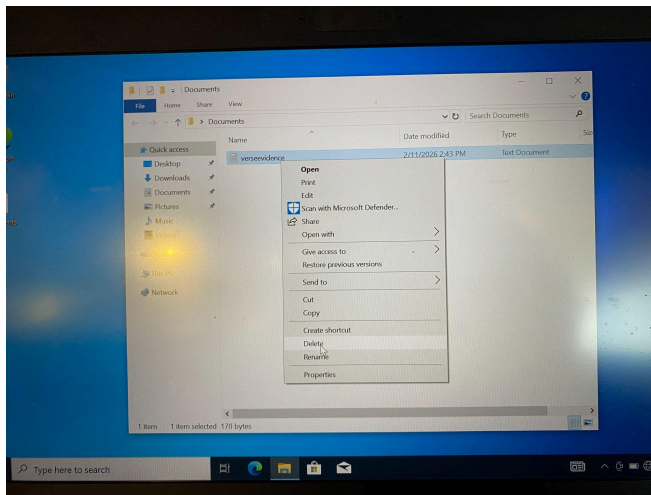

Username: DF (Adrian's Account)

Password: T9v\$Q7m!L2x@R8k#

Method of Obfuscation: Logical Deletion

- I created a text file with the verse evidence and deleted it from the folder and from the trash can.
- Forensic investigators would need to create a physical image of the drive in order to retrieve it.
