User Account #2 (Medium Password):

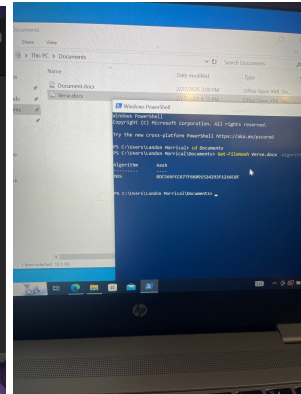

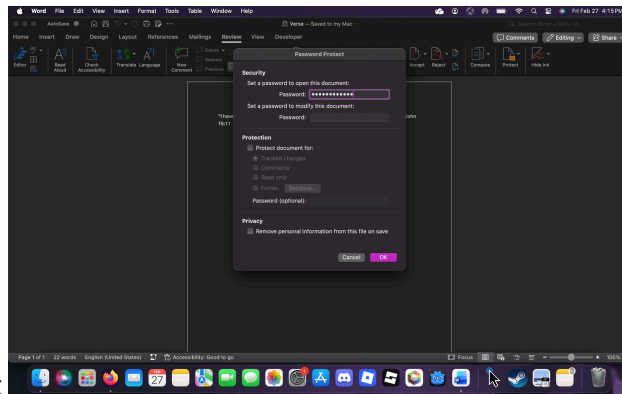

Username: Landon Morrical

Password: 57Rendevous??7

Method of Obfuscation: The first piece of evidence was hidden inside a microsoft office document named Verse.docx, password protected with a numeric password. The second piece of evidence was hidden inside a bitmap image, and then the bitmap image was renamed to installer.exe. The third piece of evidence was hidden in plaintext inside a file called Evidence.txt on the desktop. The file was then deleted.
